

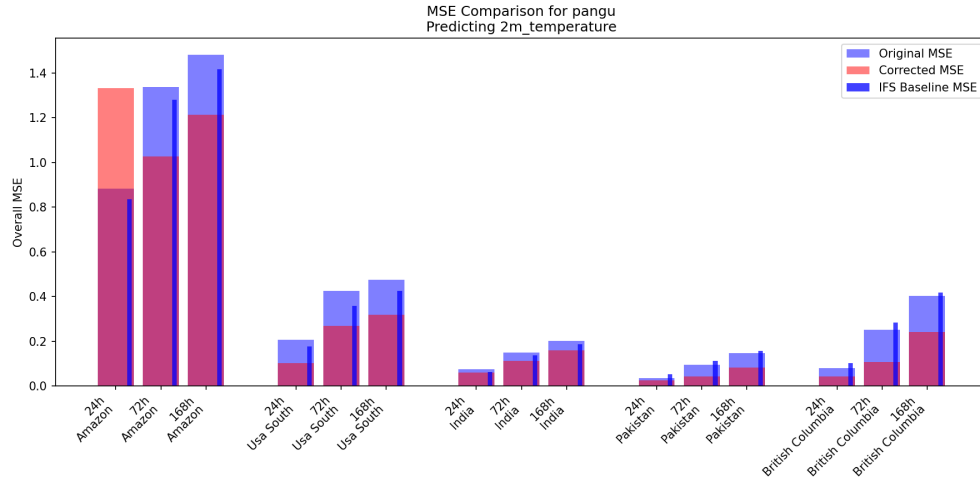

Figure 1: Overall MSE comparison for 2m temperature: original vs corrected forecasts.

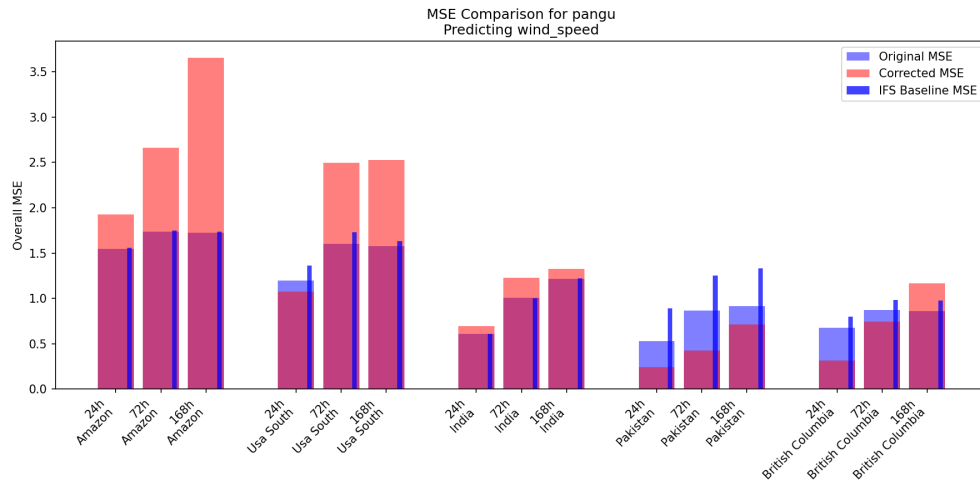

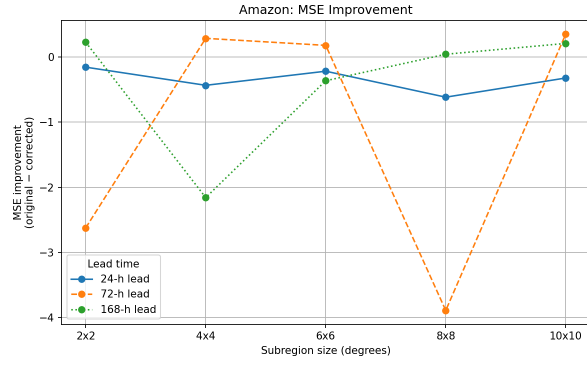

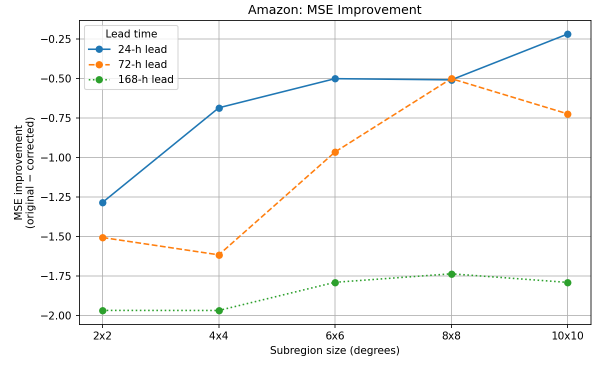

Figure 2: Overall MSE comparison for 10m wind speed: original vs corrected forecasts.

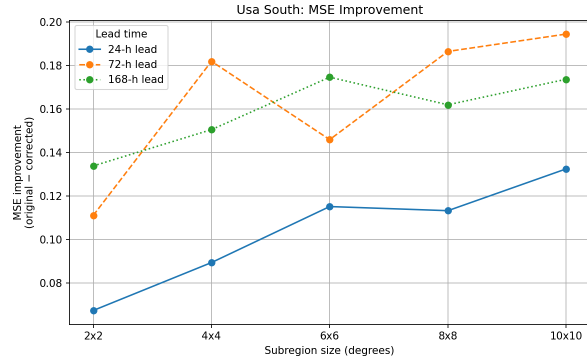

(a) 2m temperature

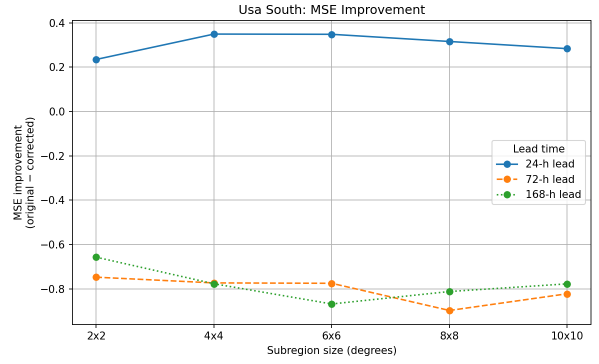

(b) 10m wind speed

Figure 3: Amazon subregion MSE improvement vs size for 2m temperature and 10m wind speed (Original – Corrected).

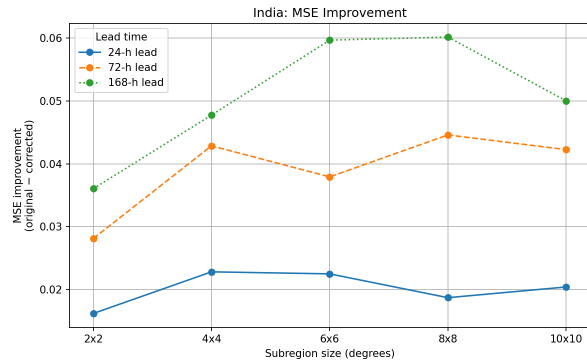

(a) 2m temperature

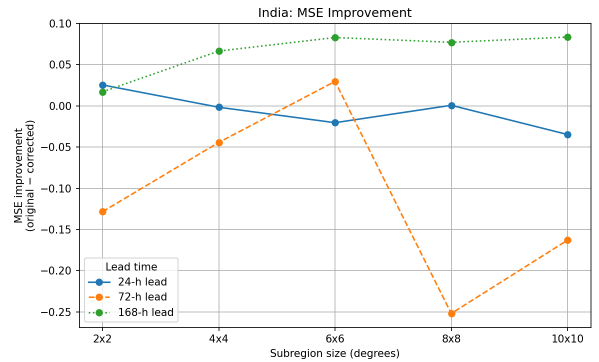

(b) 10m wind speed

Figure 4: USA South subregion MSE improvement vs size for 2m temperature and 10m wind speed (Original – Corrected).

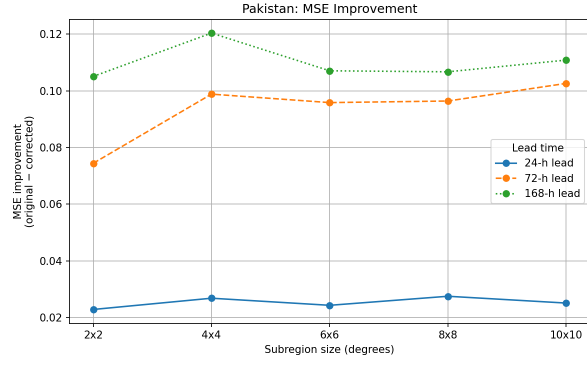

(a) 2m temperature

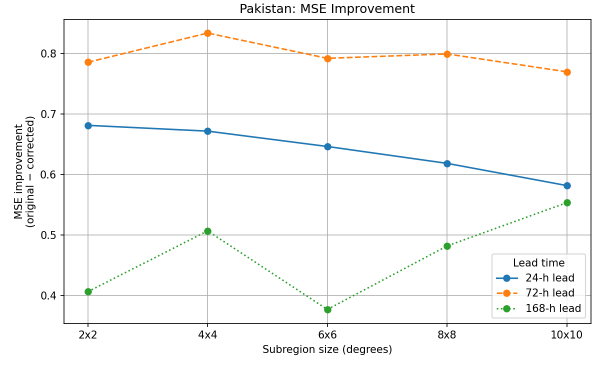

(b) 10m wind speed

Figure 5: India subregion MSE improvement vs size for 2m temperature and 10m wind speed (Original – Corrected).

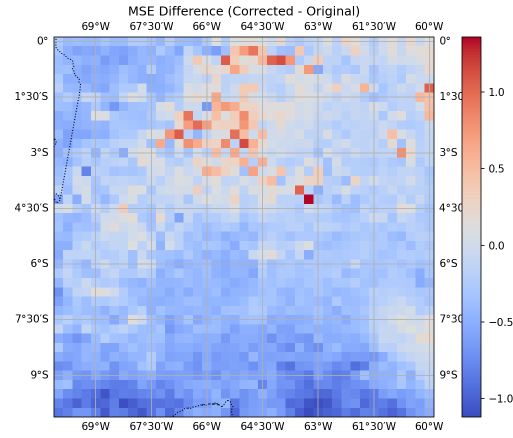

(a) 2 m temperature

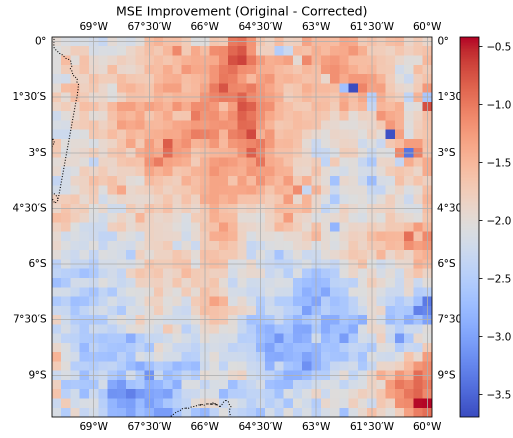

(b) 10 m wind speed

Figure 6: Pakistan subregion MSE improvement vs size for 2 m temperature and 10 m wind speed (Original – Corrected).

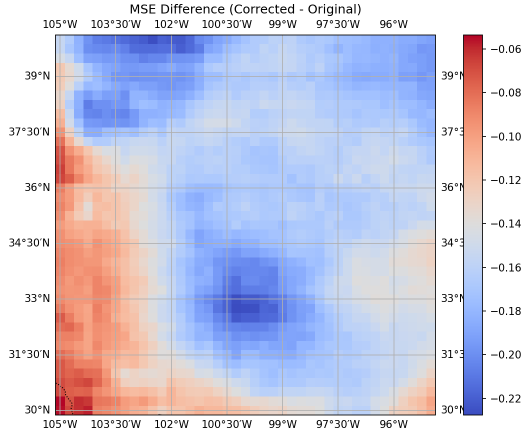

(a) 2 m temperature

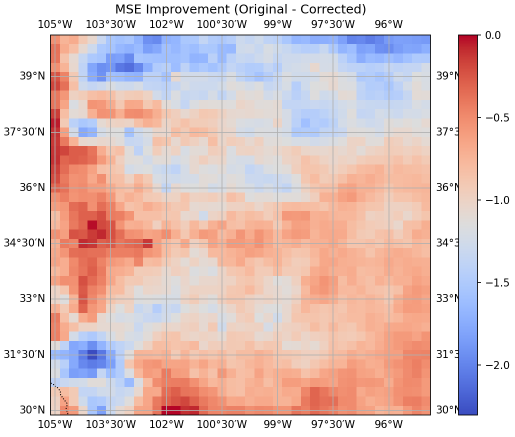

(b) 10 m wind speed

Figure 7: Amazon MSE Difference Map for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

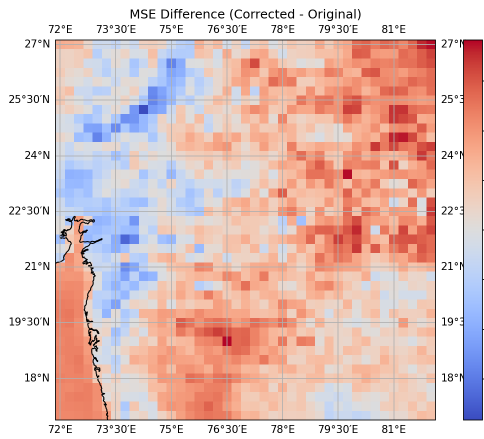

(a) 2 m temperature

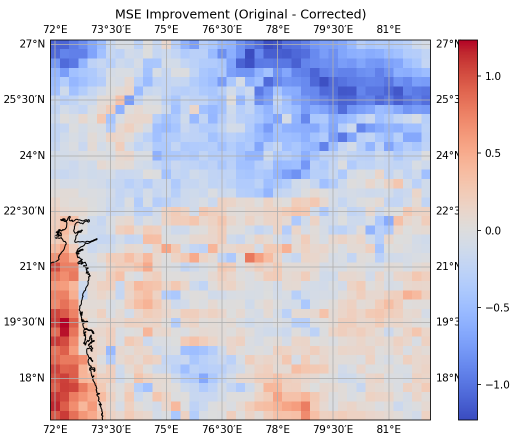

(b) 10 m wind speed

Figure 8: USA South MSE Difference Map for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

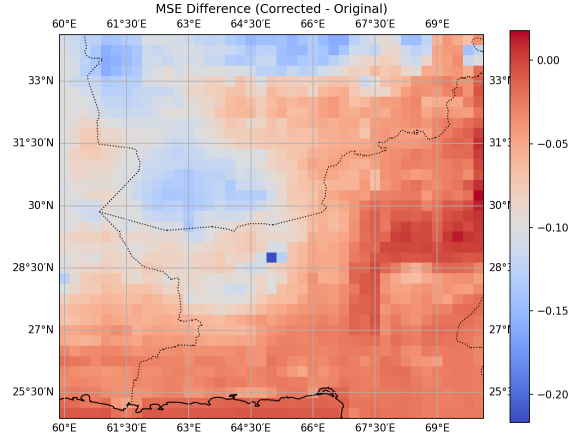

(a) 2 m temperature

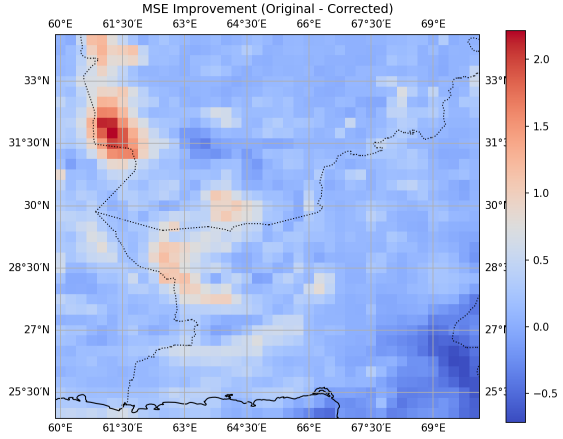

(b) 10 m wind speed

Figure 9: India MSE Difference Map for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

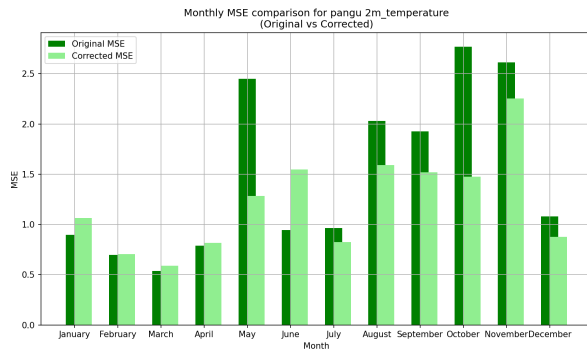

(a) 2 m temperature

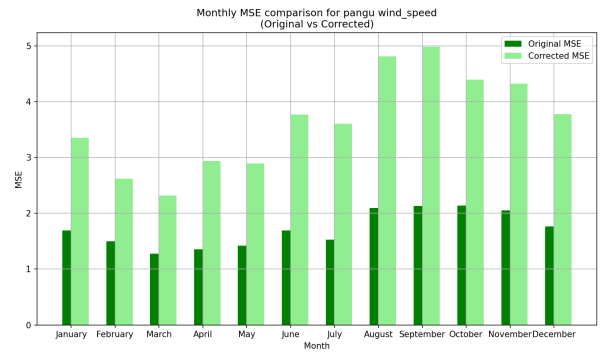

(b) 10 m wind speed

Figure 10: Pakistan MSE Difference Map for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

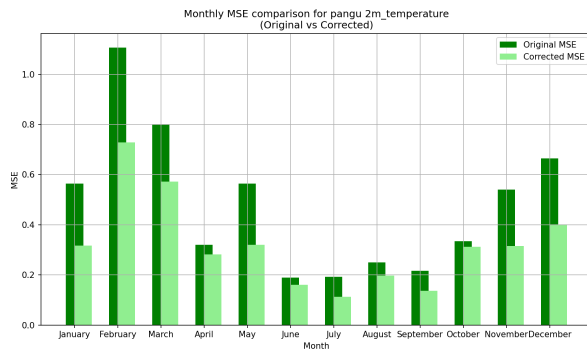

(a) 2 m temperature

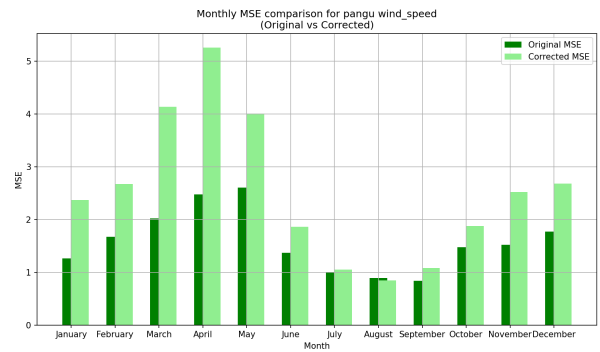

(b) 10 m wind speed

Figure 11: Amazon MSE by month for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

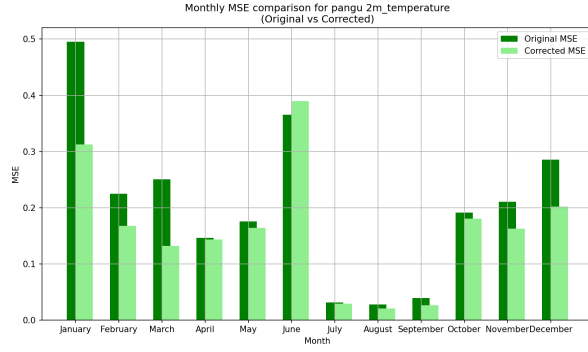

(a) 2 m temperature

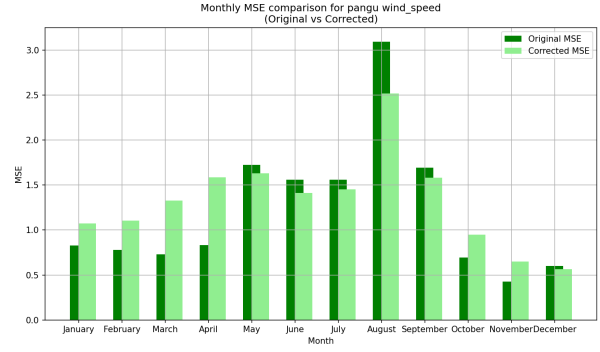

(b) 10 m wind speed

Figure 12: USA South MSE by month for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

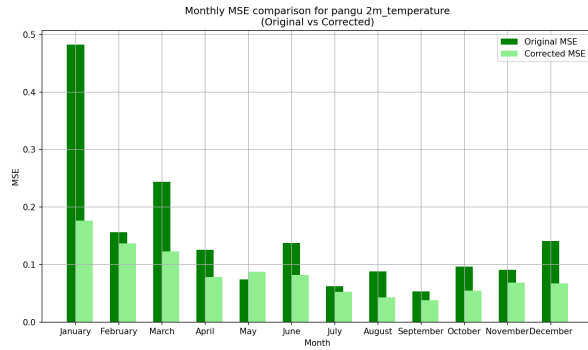

(a) 2 m temperature

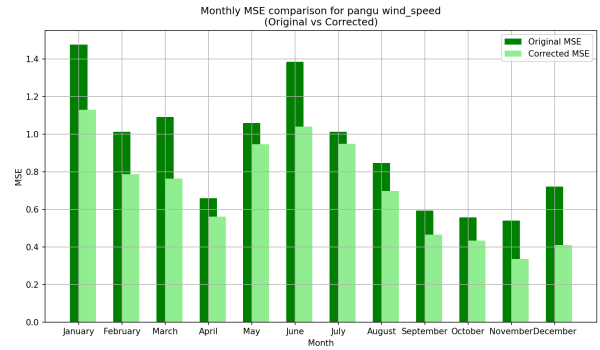

(b) 10 m wind speed

Figure 13: India MSE by month for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).

(a) 2 m temperature

(b) 10 m wind speed

Figure 14: Pakistan MSE by month for the 10×10 subregion, 168 h lead time: (a) 2 m temperature and (b) 10 m wind speed (Original – Corrected).
